

```
.nav a {
  color: red;
}
```

Text

```
color: red;
color: rgb(123,55,0);
color: #3499f7;

font-family: Arial, Helvetica, sans-serif;
font-family: "Times New Roman", Times, serif;
font-family: "Courier New", Courier, monospace;

font-weight: bold;

text-transform: uppercase;

font-size: 48px;
font-size: 3ems;
```

Background

```
background-color: #0099cc;
background-image: url('http://goo.gl/04j7Nn');
```

Margin & Borders

```
border: 3px solid #cc0000;

padding: 23px;
padding-top: 10px;
padding-bottom: 23px;
padding-left: 20px;
padding-right: 20px;

margin: 14px;
margin-top: 20px;
margin-left: 10px;
margin-right: auto;
margin-left: auto;
```

both commands together centers the element.

Layout

```
display: inline;
float: right;
clear: both;

position: relative;
top: 90px;
left: 55px;

position: fixed;
position: absolute;
position: static;

width:200px;
height: 300px;
```

<http://www.barelyfitz.com/screencast/html-training/css/positioning/>

A page element with relative positioning gives you the control to absolutely position children elements inside of it.

Block elements display on a new line (e.g., h1, p, ul, li).
Inline elements display on the same line as their neighboring elements (e.g., img, a)

Bootstrap Custom Template Syntax

```
<div class="row">

  <div class="col-md-6">
    <h4>Content 1</h4>
  </div>

  <div class="col-md-6">
    <h4>Content 2</h4>
  </div>

</div>

<ul class="pull-left">
  <li><a href="#">Name</a></li>
  <li><a href="#">Browse</a></li>
</ul>

<div class="jumbotron">
  <h1>Find a place to stay.</h1>
  <p>Rent from people in over 34,000 cities and 192 countries.</p>
</div>

<ul class="nav nav-tabs">
  <li><a href="#">Primary</a></li>
  <li class="active"><a href="#">Social</a></li>
  <li><a href="#">Promotions</a></li>
  <li><a href="#">Updates</a></li>
</ul>

<ul class="nav nav-pills">
  <li><a href="#">Primary</a></li>
  <li class="active"><a href="#">Social</a></li>
  <li><a href="#">Promotions</a></li>
  <li><a href="#">Updates</a></li>
</ul>
```
